Information Technology

Ready for Board/ University Exams

Index

A] All About Computers

What is Computer?
Characteristics of Computer
History of Computers
Generation of Computers
Types & Classification of Computers
Uses/ Applications of Computers

B] Computer System

Block diagram
Functions of each unit of Block Diagram
Instruction Fetch Execute Cycle
Hardware Components of Computer System
Memory Unit
Types of Primary Memory
Past-Present-Future Secondary Storage Devices
Secondary Storage Devices in detail
Classification of storage devices
Input Devices
Output Devices

C] Data Representation

Number System
Number System Conversion Table
Number System Conversions Arithmetic Binary to Decimal

- Binary to Octal
- Binary to Hexadecimal
- Octal to Binary
- Octal to Decimal
- Octal to Hexadecimal
- Decimal to Binary
- Decimal to Octal
- Decimal to Hexadecimal
- Hexadecimal to Binary
- Hexadecimal to Octal
- Hexadecimal to Decimal

Binary Arithmetic

- Addition
- Subtraction
- Multiplication
- Division

BCD, EBCDIC, ASCII, and Unicode

D] Software

Software & its types
Types of Languages
Language Translators
Programming
Programming Languages
Computer Virus
Multimedia
Data Warehousing
Data Mining
Online Analytical Processing
Geographical Information System
Embedded System

E] Operating System

Introduction to Operating System
Types of Operating System
DOS
Unix
Linux
Windows
Advantages of Windows over DOS
Booting
Types of Files
File Organization

F] System

System
Types of System
Characteristics of MIS
Elements of System
MIS
Characteristics of MIS
Office Automation
Expert System
Artificial Intelligence (AI)

G] Various Aspects of IT

Social aspect of IT
Ethics of IT
Legal aspects of IT
Cyber Crime
Cyber Law
Software Piracy
IT Act of India

H] Networking

Networking /Communication System
Transmission Media
Communication Control Device – MODEM
Network Topology
Types of Network
Network Protocol
Hardware Requirement for Networking
Internet & Applications
TCP/IP
Evaluation of Internet
WWW
Web Pages
Web Browser
Search Engine
Client/Server Architecture
URL
ISP
e-mailing
Intranet and Extranet
Introduction to E-commerce
Advantages & Limitations of E-commerce
E-commerce in India
Question Bank
